The department of education offers the M.Ed. program for preparing the teacher educators in the educational field. To provide professionally trained teachers', administrators in school and higher education also.

The department of Education was established with a vision to impart quality education for professional excellence the department offer excellent learning, teaching and research facilities with fully competent faculty members to enable students to adjust in various conditions and meet challenges of future world. The department actively organizes seminar and extensions lectures by eminent personalities. M.Ed. courses are being offered by the department.

## ABOUT THE WEBINAR

The current COVID-19 pandemic is unprecedented but the global response draws on the lessons learned from the other disease outbreaks from the past several decades. As part of WHO's response the R&D blue print was activated to accelerate diagnostic vaccines and therapeutics for this Novel Corona Virus. The blue print aims to improve co-ordination between scientist and global health professionals accelerate the research and development process, and develop new norms and standards learned from and improved open the global response. It leads two main goals the first was to accelerate innovative research to help contain the spread of the epidemic and facilitate for those affected. The second was to support research priorities that contribute to global research platform in hopes of learning from the current pandemic response to better prepare for the next unforeseen epidemic. Hence the role of education is very crucial from this point of view. Education plays an active role to make awareness among the people. COVID-19 has caused a significant effect on many individual throughout the country and beyond. Social distancing policies and isolation, insight many acute stress disorders, irritability, fear and panic, avoidance behavior. Various measures taken to cure the pandemic spread include quarantine, isolation and nationwide lockdowns, this has created an unprecedented challenges and issues in education regarding teaching, learning processes, assessments, and various issues of various education. The key purpose of this webinar is to sensitize the people to cope with the present situation of teacher education specially in teaching learning process and role of education with reference to situation.

### KEY OBJECTIVES OF THE WEBINAR:

- To identify the role of teacher education for Covid-19.
- To make aware towards the challenges faced in teacher education for covid-19.
